

A&B Boring - Business Plan (Preview)

Executive Summary

A&B Boring is a family-run horizontal directional drilling company with over 30 years of experience. This business plan outlines our transition strategy, growth opportunities, and operational roadmap as new leadership steps in.

Current Operations

The company is currently active on a \$6 million multi-operator fiber infrastructure contract spanning 800,000 feet. We plan to expand from one to three crews and subcontract fiber pulling for additional revenue opportunities.

Looking Ahead

Our vision is to modernize A&B Boring with scalable operations, subcontract flexibility, and future-focused innovation. We are pursuing financing through multiple channels and will continue updating this document as milestones are reached.
